

# Help customers to **simplify** and **manage** their ongoing **security** posture

Benefit from the growth opportunity offered by Fortra's leading-edge, simple and effective cybersecurity solutions.

# Introducing Fortra

Fortra is a global cybersecurity software and services provider. Its trusted experts and portfolio of integrated, scalable solutions bring balance and control to organisations around the world.

Answering the need to continuously update and upgrade defences against evolving threats, Fortra offers detection across multiple threat sources, aggregating and correlating them using artificial intelligence (AI) to recognise patterns and help customers mitigate risk, leading to a more resilient and secure organisation.

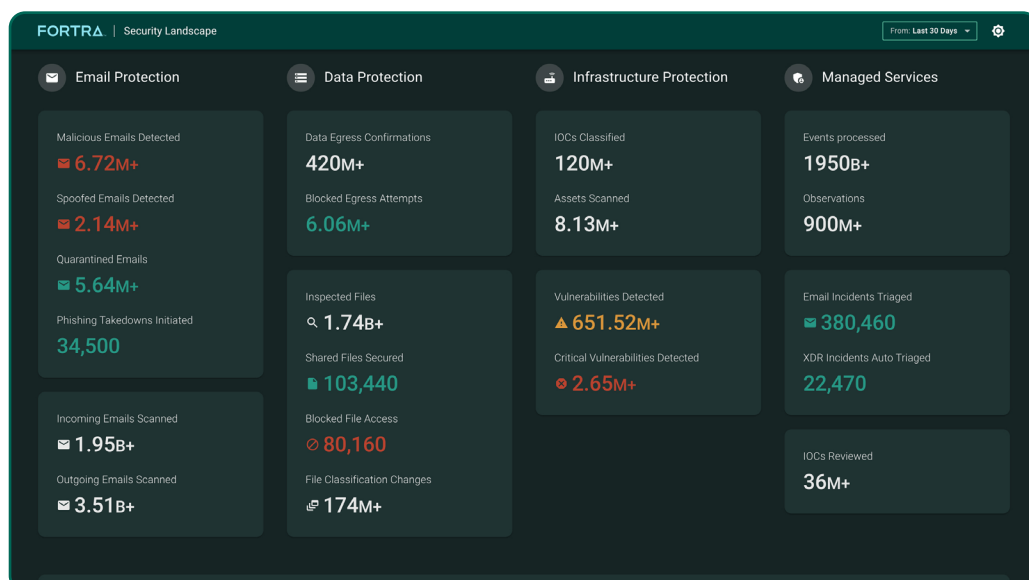

## Make security simpler and more effective

Your customers are looking for guidance in making critical software decisions that support their growth and long-term success.

By working with Fortra's **single portfolio of best-in-class cybersecurity solutions**, you can create a simpler strategy for your customers that is stronger, more effective, and more adaptable.

### With Fortra, partners can:

- **Offer one platform for peace of mind**  
Fortra is integrating its cybersecurity solutions on a cloud-native, multi-vector cyber defence platform purpose-built for the dynamic threat landscape.
- **Leverage world-class threat intelligence with the Fortra Threat Brain**  
With an all-in-one information hub fed by combined intelligence from Fortra's solutions, partners, and law enforcement bureaus.
- **Help customers simplify**  
Fortra's integrated cybersecurity portfolio helps to simplify administration, reduce overhead, and remove the complexity of working with multiple vendors.

Fortra™ is a cloud-native, multi-vector cyber defense platform.
